2-Month Priority Support	Bug fixes for delivered functionality · Deployment assistance Site structure changes or new features billed separately	PKR 25,000

Subtotal PKR 290,000

TOTAL AMOUNT DUE

PKR
290,000

SCOPE NOTE

This quotation covers the full Goethe Exam Booking Bot as delivered. 2 months priority support for bug fixes and deployment assistance is included. Support covers existing functionality only. If Goethe changes their website structure or forms, that is outside scope and billed separately.

Value Justification:

Each Goethe exam slot costs PKR 25,000-30,000 per student. Missing a booking window means waiting months for the next exam date. This bot secures every slot automatically for 3+ students simultaneously. The investment pays for itself even if it saves one single slot. With three students across A1, A2, and B1 levels, the total slot value protected is PKR 75,000-90,000 per exam cycle.

TERMS

Payment due upon acceptance.
Full source code + deployment rights transferred.
2 months priority support from date of acceptance.

PAYMENT METHODS

Bank Transfer
