DEVELOPMENT & PRICING BREAKDOWN

Module	Description	Amount (PKR)
Core Booking Engine	Selenium automation: poll, click flow, login, form fill, confirmation capture	PKR 75,000
Selector Fallback System	16 element types with 2-5 CSS/XPath fallbacks each. Survives site structure changes.	PKR 20,000
Proxy Rotation System	Health checks, 5-min blacklist, self-healing pool, thread-safe for parallel students.	PKR 18,000
Circuit Breaker	503/Cloudflare detection. 10 failures = 15 min cooldown, then auto-retry. Prevents IP bans.	PKR 15,000
Web Dashboard & API	Flask backend (30+ endpoints), SSE logs, analytics, queue mgmt, countdown, upload, results.	PKR 45,000
AI Assistant (Alexa)	Gemini 2.5 Flash Lite chatbot. Ask about students, status, logs, retry, stop, deployment help.	PKR 22,000
Student Queue System	DB-backed priority queue. Enqueue/dequeue/complete/fail/reset/clear + history tracking.	PKR 15,000
Confirmation Parser	Extracts reference, exam date/time, level (A1-C2), city, errors. Multi-language patterns.	PKR 12,000

Dead Man Switch	Heartbeat monitor. Auto-alerts via Telegram if process hangs. 5-min timeout.	PKR 10,000
Database Layer	5 tables: students, logs, bot_state, queue_history, sessions. Checkpoint/resume. WAL mode.	PKR 8,000
Testing Suite	66 pytest tests across 8 files. Unit + integration covering every module.	PKR 20,000
Deployment & Docs	Dockerfile, Railway/Netlify config, professional README badges + architecture + env table.	PKR 15,000

Value Justification: Each Goethe exam slot costs PKR 25,000-30,000 per student. Missing a booking window means waiting months for the next exam date. This bot secures every slot automatically for 3+ students simultaneously. The investment pays for itself even if it saves one single slot. With three students across A1, A2, and B1 levels, the total slot value protected is PKR 75,000-90,000 per exam cycle.

Subtotal (134 development hours) PKR 275,000

Priority Support (2 months — bugs + deploy help) PKR 0(no Charges)

TOTAL AMOUNT

**PKR
275,000**

Ownership: Full source code + deployment rights transferred. 1 month priority support included (bug fixes, deployment assistance). Hosting costs (Railway \$5/mo + Netlify free) borne by client.

Accepted Payment: Bank Transfer
